Surgical Resident Curriculum, 4th Edition

Walter Pories, M.D., FACS, Editor

This revised publication provides the overview, framework and guideposts that will provide a flexible, useful tool to each program director in their fundamental responsibility of shaping a surgical curriculum that provides the best possible training experience for residents.

The Physiologic Basis of Surgery, 4th edition text

J. Patrick O'Leary, M.D.

Arnold Tabuenca, M.D.

The official APDS Basic Science textbook, published by Williams & Wilkins, contains over twenty chapters relating to basic science topics impacting surgical practice.

The Physiologic Basis of Surgery, 3rd edition CD-ROM

Question/Answer Data Bank

A newly available program containing over 1200 multiple choice questions, answers, feedback explanation, and references to the text of The Physiologic Basis of Surgery, 3rd edition

12th & 13th Annual Basic Science Course Syllabus

*Course Director:
Nicholas Coe, M.D.*

This course was designed to bridge the gap between preclinical basic science and the clinically relevant applied science needed by future surgeons.
